From the "Western Star," a religious periodical, published at Jacksonville Illinois.

"DOWNS' VEGETABLE BALSAMIC ELIXIR.—We are not in the habit of puffing medicines in our columns, but having used the above medicine in our family with gratifying success, and being persuaded from what we can learn concerning it that it is in fact destined to be for Coughs, Colds, Consumptions, Whooping Cough Asthma, and diseases of the Chest and Lungs we do not hesitate to give it a cordial notice"

Elder Downs, an acquaintance of ours, was himself on the road for a long time, and was thought to be fast gone with the consumption, a disease he only shuns his father's family This remedy was the means of restoring his own health, and in this case have testified to its salutary effects upon themselves and family

From the Miramichi (Canada) Post, of April 6, 1846

"REV N H DOWNS' VEGETABLE BALSAMIC ELIXIR, for all diseases of the Chest and Lungs From the abundant testimonials of those who have made use of this preparation, we can recommend it to the public with the utmost confidence as the safest and most efficacious remedy The great danger, often, of neglecting common complaints incident to the chest and lungs, should persuade every person subject to such complaints to possess themselves of this valuable remedy"

It would be worse than useless for us to give our opinion of the merits of this preparation, when we can call testimony of so much more weight, for the manner in which an article is received and stands in the place where it originates were, from its use, the public can judge of its value has much to do in form as to its character as a remedial agent—this SYRUP is used and recommended by members of the Faculty of the Medical College in Philadelphia

THE VEGETABLE PULMONARY BALSAM,
FOR TWENTY YEARS THE MOST POPULAR REMEDY IN NEW ENGLAND,
FOR *Coughs, Colds, Consumptions, Asthma Pain in the Breast, Soreness of the Lungs, Spitting of Blood Hooping Cough Bronchitis and Pulmonary Affections and Diseases of the Lungs of every kind*

THE VEGETABLE PULMONARY BALSAM

The Vegetable Pulmonary Balsam is now known by many of the most eminent physicians in the country to be the only remedy that will cure Consumption in its last stages, when all other remedies fail, and has been used in many of the Hospitals in the United States with great success

It is not to be supposed that this or any other medicine will cure every one that takes it, but we consider it a safe and very effective remedy, that will not injure the constitution and is certain to relieve, when used in time

It has, for some time past, been the practice of physicians to use this remedy in their own families, and in all cases of Consumption, Asthma, Spitting of Blood, and Coughs in pulmonary affections it never did and will not fail in relieving and in most cases curing when used in time

For the most part those who use it are not afflicted with consumption when they commence using it, but are troubled with a cough, cold, or settling on the lungs, for which they use it, and find relief almost immediately, and by persevering in its use a few days, are entirely cured

The Vegetable Pulmonary Balsam was for many years the only article known as *Pulmonary Balsam* The great success which has given it a reputation second to none, has induced many persons to attempt to counterfeit it by using the name of the genuine, or by putting up such a resemblance as nearly as possible, the object of these is to deceive the public for the sake of profit Among these are "Cutler's Pulmonary Balsam," "Dr Sanford's Liver Invigorator," "Dr Anderson's Pulmonary Balsam," "Dr Hartshorn's Pulmonary Balsam," "Hunter's Pulmonary Balsam," &c—Be sure and call for the genuine Vegetable Pulmonary Balsam, and if you cannot get it, you had better not buy any Price 75 cents per bottle

Funds for the "Little Nailer."

We sometime since gave notice to the children of Bangor that it would be pleasant for them to contribute something for the purpose of educating the young "nailer," mentioned in the letters of the learned blacksmith in Lynn, England

Several little sums have been handed in to us, and to day we have been taking the change from the snug drawer in which it was deposited, for the purpose of handing the money over to Mr Sabine, for him to send to Mr Burritt

The sum deposited is small but there is many associations connected with these half dimes and dimes which excite varied emotions

A few weeks seemingly a few days since, dimes of this change ten of these bright cents before us, were placed in our hands by cheerful and beautiful boys Their images printed upon our memory, as they appeared when they came into the office, and in gave their portion, for the poor ragged boy expressed in

who has looked into this subject, that a revolutionary government can maintain itself inside of Texas when it is not defended and executed by the sword It was utterly impotent to defend itself against Mexico and the record, what is relative even to the Texas race She referenced her revolutionary government and her revolutionary debt upon not to reach beyond the extent to which she had carried the power of Texas in opposition to the power of Mexico

It is the clear and mere question of fact—a dispute of how will it be regarded that the country lying between the Nueces and the Del Norte, to which you army was ordered and of which it took possession, was subject to Texan law and not Mexican law? Who did your General direct? "What to be your home? Do you look to a trial by jury on the east bank of the Rio Grande—to Anglo Saxons making out indictments in their regions? No! Why, those of Mexicans residing there hastily there to abide long? Is their condition fields at the approach of your army—desolate? before it had been a desert of the Mexican government can do it. While there cities are using means to relieve the *Irish*, may we not do something for the

Mexico and New Mexico by force and arms, and hold possession of them as conquered provinces, and thereby force Mexico to sue for peace, and submit to the terms we may dictate. Now, Mr President, I wish to know if I am required to act upon such opinions of the Chairman of the Committee on Foreign Relations, for and upon facts which are the result of his own individual investigations, and which are not known to the Senate, and upon which they have had no opportunity of acting? I am not willing to do so. I must have the evidence before me, and I must judge for myself of its force and application

But I am to take it for granted that the mission he alone put it upon for the purpose of [illegible] for a most unrighteous and unjust war. Is it possible that for the conditions you can purchase a peace with Mexico? How? By the purchase of California? Mr President I know what facts the Chairman of the Committee on Foreign Affairs may have had access to. I know not what secret agents have been whispering into the ears of the authorities at Mexico, but at one thing I am certain, that by no cession of California and New Mexico by them can we ever purchase a peace with Mexico

You may wrest provinces from Mexico by war—you may hold them by the right of the strongest—you may not let but a treaty of peace [illegible] with the people of Mexico, legitimately had you never will have. I think God that is so, as well for the sake of the Mexican people—for our own sake, the Senator from Alabama (Mr King) I do not value the [illegible] of plundered from the United States as for the [illegible] and children—a nation of such profligate principles as that can never be [illegible] with. Never! Sir, never! Sir, never! Sir,

BY THE LAST MAIL.

CONGRESS.

Washington, Feb. 16—6 P. M.

In the Senate, the resolution [illegible] Pennsylvania against the introduction of slavery into new territory [illegible] to the Union, were presented by Messrs. Cameron and Corwin.

Mr. Benton, from the Military Committee, reported a bill to organize the ten [illegible] ready authorized into brigades [illegible] each brigade to be composed of not less than two regiments, and each division of [illegible] than two brigades. The bill provides [illegible] General officers are to be discharged [illegible] after the conclusion of the war; [illegible] officers now in Mexico to be permitted [illegible] the House will remain regulars; the President [illegible] authorized to fill vacancies in the [illegible] officers, by promotions, or to create [illegible] to be filled for that purpose; settlers to be [illegible] of their claims upon soldiers' pay, or [illegible] receive any soldier's pay from the paymaster.

The Naval Appropriation Bill was [illegible] up, and the amendment to restrict the [illegible] cost for completion of the Brooklyn dock was rejected.

The appropriations for dry docks at Kittery, Me., at Philadelphia and at Pensacola were then adopted in the same shape as they came from the House.

The bill was then laid by, and the three million bill was then taken up.

Mr Badger addressed the Senate at considerable length.

Mr Chalmers obtained the floor for to-morrow, and after an executive session the Senate adjourned.

In the House, the bill for the admission of Wisconsin into the Union was passed.

The bill making appropriations for Naval Pensions, and one creating the office of Surveyor General of Oregon, were read twice and referred.

The bill making Cold Spring, Long Island, a port of delivery within the collection district of New York, and Greenport a port of delivery within the collection district of Sag Harbor, was passed.

The Committee on Ways and Means reported back the bill making appropriations to the Military Academy at West Point, with a recommendation that the amendments of the Senate be disagreed to.

The resolutions of the Legislature of Ohio were presented for the increase of the pay of privates and supernumerary officers and for the compensation of Generals Taylor and Scott.

The bill to regulate appellate jurisdiction of the courts of the United States were passed, together with a bill to extend the charter of the Union bank of Georgetown.

Mr Carroll from the Military Committee, reported back the joint resolution returning thanks to Gen. Taylor, with a recommendation that the State's amendment be agreed to.

Mr Thompson of Mississippi, moved to amend by striking the presentation of gold medals to Generals Butler, Henderson, Twiggs, Worth and Quitman, and one to the nearest relative of Brig. Gen. Hamer, deceased, and expressing the regret of the nation at the death of the latter. The amendment of Mr Thompson was then adopted, 124 years and nays, and was suspended, the amendment of the Senate was agreed to.

Resolutions were presented by the Legislature of Illinois, praying that the constitution be so amended as to change the tenure by which Judges of the United States Courts hold their offices.

Bills were reported from the Military and Naval Committees to regulate enlistments in the army and marine corps, and to provide an additional number of surgeons in the navy.

Several reports were submitted from committees, not of General interest.

A bill to regulate the mileage of members was then taken up, but without action upon it the House adjourned.

The amendment to the Wilmot Proviso, offered by Mr Hamlin, of Maine, and adopted in the House, is in the following words added to the Proviso as originally framed:

"provided always that every person escaping into said territory, from whom labor or service is lawfully claimed in any one of the United States, he conveyed unto the said territory to person claiming his or her labor or service."

There is a rumor in Washington that a duel is to be fought between a Senator from North Carolina and one from Tennessee.

The Bath Tribune states that Mr. Hall, whig, has resigned Register of Deeds in that county, by a majority so large that even Rust himself would find it difficult to count him out, unless he had the count all to himself.

BANGOR TEMPERANCE HOUSE.

In the Pacific we beg leave to say, that in the entire remodeling of this House, the proprietors had in view the comfort and convenience of the traveling community, more than "dollars and cents"—that its fitting up and furnishing were designed to place it in rank with the first Hotels in New England.

Strict Temperance principles in its management, we pledge ourselves to adhere to—and as to excellent drinks, will only say that our Bar will be supplied with articles inferior to no other House, and on reasonable terms.

Connected with this establishment is a well-[illegible] STABLE, with experienced Hostlers always on hand, and at home in this department.
